

January 10, 2020

Dear President Cabrera, Provost Bras, and Vice President Fortner:

We are writing to urge you to eliminate the Special Institutional Fee (SIF) and work to reduce other mandatory fees for graduate students at Georgia Tech.

As you are aware, each year graduate students are required to pay the \$1,032 SIF and \$1,748 in additional mandatory fees [1]. Because mandatory fees are not covered by tuition waivers for students supported as graduate teaching assistants (GTAs) and graduate research assistants (GRAs), they must be paid out-of-pocket; rolling mandatory fees into tuition would effectively eliminate them for GTAs and GRAs.

As you are also aware, in 2015 Georgia Tech requested that the University System of Georgia reduce the SIF for graduate students each year until it was eliminated [2,3]. Unfortunately, the fee was only reduced twice [3], and has remained at \$344 per semester (\$1,032 per year) since 2017.

Mandatory student fees have a significant effect on both prospective and current graduate students:

- For prospective students, these fees send a powerful signal about the Institute's level of support for its graduate students and serves as a strong financial disincentive to attend Georgia Tech; the total out-of-pocket fees paid by graduate students at Georgia Tech are significantly higher than at peer institutions.
- For current graduate students, these fees are particularly onerous as the cost of living in Atlanta continues to rise [4]. This places undue strain on the financial health of graduate students, including the graduate student employees who form the backbone of the Institute's research and teaching missions.

We call on the administration of Georgia Tech to:

1. Request that the University System of Georgia eliminate the SIF or roll it into tuition;
2. Make fees such as the athletic fee, transportation fee, and technology fee voluntary, since not all graduate students utilize these services; and
3. Continue working to minimize other mandatory fees charged to graduate students.

Sincerely,

The 1,023 undersigned Georgia Tech graduate students
